THE FURY of FREE WILL

**HERO**

**BLOOD**

A family's honor is sacrosanct. Without land, Marian's people are worthless in the eyes of his elders; and nothing less than the sound of steel on flesh will satisfy them. Marian's desire for revenge runs deep.

**CONSCIENCE**

Though revenge is sweet, Marian is also driven by fear and realism. He knows that his people will suffer a greater loss if faced with the long years of battle necessary to reconquer his ancestral lands. Perhaps an alliance with the Baron of Carna Woods would suffice to start again fresh?
